Glossary		
Contents Page		1
Executive Summary		2
Introduction		4
Background		5
The Current State of the Industry		6
Fuel Cell Commercialisation Drivers		6
Industry Drivers		6
Government-Led Drivers		6
Consumer-Led Drivers		8
State of the Industry		10
Industry Growth 2005 - 2007		10
Development by Application		11
Development by Electrolyte		13
Development by Region		14
Focus on North America		14
Special Feature - Unst		16
Commercialisation Indicators		21
Manufacturing Capability		21
Costs		22
OEM Tie-Ups		24
Government Funding		26
Government and Policy		30
Financing and Industry Structure		34
Historical Stock Market Performance of Fuel Cell Companies		34
The Structure of the Fuel Cell Industry		35
Special Feature - London		38
Near-Term Outlook		43
Stationary Fuel Cells		43
UPS		43
Combined Heat and Power		46
Power Plants		48
Transport		49
Light Duty Vehicles		49
Buses		50
Niche Transport		50
Portable		54
The Market for Portable Fuel Cells – Defining Characteristics		54
Two Major Portable Fuel Cell Markets		56
Case Study: Horizon Fuel Cell Technologies		58
Case Study: US Department of Defense		59
Special Feature - China		60
Company Profiles		65
Forecasts		75
Introduction to Model		75
Key Assumptions (Application and Region)		76
Fuel Cell Shipment by Application and Region		78
Fuel Cell Shipment by Electrolyte Type		79
Authors		80
Authors: Dr. Kerry-Ann Adamson, Dr. Jonathan Butler, Dr. Mike Hugh
